## PRESIDENT'S MESSAGE

I took 4 years of Latin in High School (required by my RN) but I think I'd be better off if they'd offered Greek! Reading about Orchids can become very time consuming if you don't know the basic vocabulary and so I'm developing a dictionary for those of us who want to be able to read an article without a Greek translator. Please watch for the section "Did You Know?" Also, Lorraine has some fun quizzes to test your knowledge. I must admit that I had a tough time with the one in the June newsletter but it was fun to attempt answering. If you're enjoying these puzzles, let us know and we'll ensure there's one in each edition of future newsletters.

We're entering the 'dog days' of summer with our expected heat, humidity and rain. Protect yourself as you're out working with your orchids. Using chemicals is part of maintaining a healthy outdoor collection but be aware that some of the chemicals are very toxic, even deadly, to humans. Art Russell has an excellent article on the website about using these necessary evils. Check it out! Be aware, as well, that our sun is a huge atomic explosion radiating damaging rays that need to be blocked. Just ask my dermatologist! Who knew that baby oil and iodine was bad for skin??? A serious lesson learned the hard way! Wear the sunscreen and a hat. Mom is watching.....

## PRESIDENT'S MESSAGE CONT.

Your Board of Directors met last month and discussed several items. One, was our need for adequate communication. I'd love some feedback on this from you. Are we getting the information you need to you? Do you use the website? Is it easy to use? Are you on Facebook and is the information up to date and applicable? Do you get emails with timely information? Too much, too little? Do you want to hear more from your officers and the business end of things or are you primarily interested in general Orchid stuff? We know that there are members who are very involved in the inner workings. The planners, the doers are in the 'know'. I understand that most cannot or choose not to be involved in the minutia of the inner workings of our club. But your input is critical to those of us making decisions for all. If we're doing it right, let us know. If we're missing something, let us know. Covid created a vacuum for nearly a year with members fearful of in-person meetings and other events. We are moving past that now with the vaccine and the science that says we're moving in the right direction. Our general meeting attendance is clearly indicative of the progress made and I anticipate this year being the most "new member intensive" ever! As most of you are aware the 2021 Show was a huge success for us, our vendors and our host, the Mandarin Garden Club. Due to this we've decided to host another big event this Fall. September 11&12 will be our Fall Orchid and Plant Sale open to the community. Our regular vendors are especially excited given the extraordinary success they had in March. Deposits are being received and interest in participating has spread to other non-orchid vendors. We have decided to welcome them in order to defray associated costs of this additional event. You are going to be tapped once again for your help in making this another huge success. Be thinking about how you can contribute and be ready to raise your hand when Lorraine (yes, she's agreed to Chair this event, also) asks for help. We will need you!

One last thing. There are several positions on the Board of Directors that must be filled by the November election. They are:

President- 2 year position

Treasurer- on going

Membership Chairman- on going

Director (a 3 year position)

If you are interested please contact anyone on the Board to submit your name to the Nominating Committee. The job descriptions are detailed in the Constitution and Bylaws available on the website. Specific responsibilities will be given to anyone interested in pursuing a place on the Board. It's imperative that members step up into these positions to ensure the voices of the membership are heard. Please give this some serious thought. Thank you!

Respectfully,

Lois

## BOARD OF DIRECTORS

President	Lois Rasmussen	<a href="mailto:josorchids1943@gmail.com">josorchids1943@gmail.com</a>	904-315-9284
1st Vice-President	Lorraine Conover	<a href="mailto:lorrainesorchids@gmail.com">lorrainesorchids@gmail.com</a>

## STANDING COMMITTEES

Newsletter Editor	Jackie Dougherty
Librarian	Bonnie Myers
Raffle Tickets	Anna Lee McPhilomy
Sunshine	Christie Peppard
Hospitality	Carol Engle
Website	Art & Jane Russell
Photographer	Art Russell
Show Chairman	Lorraine Conover
Meeting Show Table Chairman	Harry McElroy
Potting Clinic Coordinator:	
	Ace Hardware, Lois Rasmussen. Back up-Christine Roadruck (1st Saturday)
	The Plant Ranch, Colin Cage. Back up-TBD. (Begins in April, 3rd Saturday, monthly)

## EVENTS

### Speakers

Speaker list for 2021 is tentative but is as follows:

### Jul- Mac's Orchids

Aug- Thanh Nguyen, Springwater Orchids. Topic TBD

Sep- Phillip Hamilton, Bredren Orchids, Topic TBD

Oct-Art Chadwick. Topic TBD

Nov- Fred Clark; Sunset Valley Orchids, Topic TBD

Dec- Christmas Event, no meeting

## Greenhouse Tours

We're looking for more growing spots to visit! It doesn't require an actual "greenhouse"!

Please let me know if you would like to open your space to the members for a "Tour" of your own! [saedocs@aol.com](mailto:saedocs@aol.com)

### Tentative Future Tour Dates

Lorraine's House	August 15
Kathleen's House	Sept. 26

## Potting Clinics

Art Russell & Linda Benson answering questions on orchid culture.

On Saturday June 19th, six members of the Jacksonville Orchid Society attended the re-potting culture class at The Plant Ranch Nursery. The clinic was very successful and brought in a number of orchid growers with culture and potting questions.

Lois helping a grower at Hagan Ace Hardware

## July Potting Clinics

July 3, 10-1 Hagan Ace Hardware--12501 San Jose Blvd, Mandarin

July 17, 10-1 Plant Ranch Nursery--14108 Beach Blvd., Jacksonville Beach

No experience needed! Come join other members of the Jacksonville Orchid Society to help the orchid growing public re-pot their plants and learn about orchid culture.

## Fall Orchid & Plant Sale

**JOS members** and all the orchid enthusiasts in our area are looking forward to September 11th & 12<sup>th</sup> for our first ever **“Fall Orchid & Plant Sale”** Event.

**We will not** have any displays, judging or food prep.

**We will have** lots of orchids to purchase from our favorite vendors and landscape plants for our gardens from other vendors.

**We will need** volunteers to help with Vendor setup on Thursday and Friday the 9<sup>th</sup> & 10<sup>th</sup>, and during Saturday & Sunday in the Event areas. Bonnie Myers once again will be handling the Volunteer Sign Up Sheets. **“No Experience Necessary”**

**We are expecting** a great turnout and for sure need your participation to make this happen.

**Vendors will be** inside the Mandarin Garden Club building as well as outside in the garden areas. Our Potting Tent will be located outside. Hicks Orchid Supply will also be attending. You might consider preordering supplies.

**Take a few** “Save The Date” cards and give them to friends and people you meet. Many people who attended our March Show came from personal contact. Take a Poster and place it in your Publix store on the Bulletin Board and anywhere else you can place one.

**Jacksonville Orchid Society**  
**Fall**  
**Orchid & Plant**  
**Sale**  
**Sat Sept 11, 9 - 5**  
**Sun Sept 12, 9 - 4**

## THIS MONTH'S MEETING

### Mac's Orchids

Mac Rivenbark and his Filipina wife, Helen, started an orchid business over 20 years ago after many fascinating trips to the Philippines. With extensive study Mac has become an expert in Philippine and other Asian orchid species and has grown and bloomed over 300 different types.

Mac served our country in the U.S. Marine Corps. He is the past president of the Fort Lauderdale Orchid Society and enjoys giving lectures and educating others about orchids. Come see and hear this exciting, educational and interesting program.

### Amazing Orchids That Grow In Florida

Mac will bring and show some amazing orchid plants that grow great here in Florida and explain where and how he has seen them grow their best and the type of care needed. This program has a lot of information for both beginners and even the more experienced growers. Mac has gathered advice and information from many large commercial orchid growers and hundreds of amazing private orchid collections. He will be able to answer questions during this culture lecture as we all learn from one another. Mac is also bringing an assortment of great orchid species and hybrid plants for sale. You can visit his website if you can't wait that long.

[Asianorchidsource.com](http://Asianorchidsource.com)

[Macsorchids Facebook](#)

---

**MEETING LOCATION**  
Mandarin Garden Club  
2892 Loretto Road  
Jacksonville, FL 32223

Our General Meeting is a good time to ask questions from our expert growers and get tips for what to do when there is a problem. We cover a wide variety of topics including species and hybrids that are good to grow in this area, identification of pests and diseases, watering and fertilizing, and where to grow your orchids.

Social Distancing. Please bring a mask to wear if you are not yet vaccinated and can't maintain social distancing of 6 feet from others at the meeting.

## EDUCATION CORNER

The Jacksonville Orchid Society's mission is based on education about orchids. Since so many participated in June's mounting event, thought instructions on care of your new orchids was in order. Thanks to Art Russell! If there are any topics you'd like explored in the future, email me! [saedocs@aol.com](mailto:saedocs@aol.com)

***Brassavola nodosa (B. nodosa)***. This is a common and easily grown orchid, especially for the novice grower. Moreover, it is also a very rewarding orchid to grow as it is very fragrant during the evening. This is because it is pollinated by “night-flying sphinid moths that are attracted by the powerful sweet scent produced only at night” in its natural range. Among other things, *B. nodosa* is also known as “Lady of the night” because of its powerful fragrance. *This orchid is also salt-tolerant and ideal to grow in our coastal location.*

In my own collection, I've had five examples of *B. nodosa* and in the past five years they have bloomed 12 times between May and November. This year my blooms are a bit behind schedule, but I expect first blossoms within the next month or so.

**LIGHT:** 2500-3500 fc. This orchid will grow well with your cattleya type orchids, although it will not tolerate direct mid-day sun well. Be sure they are getting strong air movement with higher levels of light and temperature.

**TEMPERATURE:** This orchid can tolerate our northeast Florida summer temperatures as long as the orchid is not in direct mid-day sun. As a tropical plant it won't tolerate cold temperatures. So, be sure to move this orchid to a heated space with the temperature gets down to about 60F. In addition, Baker and Baker reported that this orchid \*will not flower\* if taken to about 50F. When grown in cool temperatures it is important that this orchid be kept as dry as possible.

## EDUCATION CORNER CONT.

### **WATER:**

This orchid needs lots of water during the growing season. This means that any media must be free-draining. I've successfully used straight Hydrotron as a media with great success, but other fast-draining media will work as well. The key is that growing *B. nodosa* must be kept moist while growing. You'll have to determine how often to water under your growing conditions, and during the hottest times of the year may have to water as frequently as every 2-3 days.

**GROWING MEDIA:** This orchid is successfully grown either mounted or in a pot. However, *Whitner notes that hybrids of this orchid are best mounted or grown in baskets.* Further, as observed by myself and others, as a sympodial orchid, its "rambling" growth pattern seems ideally suited to mounting or basket culture.

*Mounting* – Mount this orchid on cypress, cork, tree-fern slab, or other convenient mounting media. If mounted, water this orchid everyday.

*Pot-grown* – Use smaller pots allowing at most 2 years of growth with plastic or clay pots typically being used. The key is that orchid pots must be used. This orchid requires heavy watering and fast draining media such as medium to large bark, tree-fern or osmunda, or Hydrotron. Like other orchids, repot when new growth is starting or after flowering.

**FERTILIZER:** Fertilize this orchid weekly with a balanced fertilizer such as your favorite 20-20-20 at 1/4 strength.

**REST PERIOD:** Reduce the amount of water sharply November through March, but don't allow the media to totally dry out. Fertilizer should be reduced or eliminated during the rest period while maintaining light levels at the highest possible levels without burning the leaves.

## DID YOU KNOW? JOS HAS A LIBRARY!

Our Library has a wealth of information.

Members may check out a variety of books and a few DVDs. Our collection includes culture, pests & diseases, individual genus, country of origin, etc.

Since we do not have an area to keep all our books at Mandarin Garden Club a selection is available at each meeting. Requests may be made, and those books can be available at the next general meeting.

There will be about a dozen books available at each meeting that can be checked out for a month. We expect them to be returned at the next meeting. If you are unable to return them to a meeting, please make arrangements for their safe return.

An inventory list will be available to order a book for the following month.

Bonnie Myers, Librarian

904-571-3103

## **ATTENTION!**

Anyone currently holding on to library books,  
please return them!

## ORCHID BEAUTY CONTEST

Congratulations to Lois Rasmussen!  
June's winner—C. mossiae var semi-alba

Post a picture of your prettiest orchid growing during the month on the [JOS Facebook page](#). Include your name and the name of the orchid. A panel will judge the entries and select the prettiest orchid! Enter as many as you like! Participation is open to all members of the Jacksonville Orchid Society.

My example is: Angraecum Veitchii by Art Russell - January 2021 JOS Orchid Beauty Contest

### WINNER ANNOUNCEMENT

We'll announce the winner at the following month's meeting of the Jacksonville Orchid Society, and here in the newsletter.

You don't need an expensive camera to enter pictures. Keep it simple; a cell phone can record amazing images. We just want see to pretty orchids!

---

## A CHALLENGE!

40 members and guests of the Jacksonville Orchid Society mounted Brassavola nodosa (B. nodosa) at our June 8 meeting. Congratulations!

Now that we all have B. nodosa mounted, *Let's Have a Contest!*

**Rules.** First participant to bloom a B. nodosa mounted at the June meeting wins!

**A prize?** Well, of course there will be a prize! Prize will be announced in the coming months.

To submit your orchid as winner you'll have to send us a picture of the orchid as mounted last night and bring it to the next meeting.

By way of background, *this orchid can be expected to bloom once or twice a year, typically in the Spring and / or the Fall.* In addition B. nodosa care instructions are on the JOS website (<http://jaxorchidsociety.org>) at <http://jaxorchidsociety.org/2021/06/08/brassavola-nodosa-b-nodosa/>

# SECRETARY'S MINUTES

## MINUTES OF THE JACKSONVILLE ORCHID SOCIETY GENERAL MEETING

June 8, 2021 - Mandarin Garden Club

Meeting called to order at 7:00 p.m. ET By Lois Rasmussen, President.

**Raffle moved to beginning of due to planned hands-on activity:** Annalee McEnamy and Christie Peppard announced raffle winners and handed out plants to the lucky recipients.

### **President's Report by Lois Rasmussen:**

- Zoo event – Art in the Garden went well. The JOS table was located at the Gorilla habitat.
- Potting Clinics – Revenue for May was \$170 at Ace Hardware in San Jose and \$25 at the first Plant Ranch clinic. The potting clinics are a good new member recruitment activity.

**Secretary's Report by Deborah Courtney:** No official minutes for May due to the club Picnic.

**Treasurer's Report by Scott Rasmussen:** Membership approved the June Treasurer's report as published in the newsletter.

### **1<sup>st</sup> Vice President and JOS Show Chair Report by Lorraine Conover**

- Speakers – October, Arthur Chadwick rescheduled for next year. Looking for a replacement.
- Survey in June newsletter to help members learn how to pronounce orchid names. Members are encouraged to complete the survey.
- Fall Sale – September at Mandarin Garden club. See Bonnie Myers (volunteer coordinator) to volunteer.

### **2<sup>nd</sup> Vice President Report by Jackie Dougherty:**

- Picnic – Lois recognized Jackie for doing an outstanding job as the picnic coordinator. Well done, Jackie!
- Greenhouse Tours – Let Jackie know if you're interested in hosting a tour.

### **Membership Committee Report by Colin Cage:**

- Colin welcomed several new members and introduced guests.
- New potting clinic at the Plant Ranch on June 19 from 10 AM to 1 PM. Contact Colin Cage to volunteer at future potting clinics at colincage@gmail.com.

**Sunshine by Christie Peppard:** Carol Engle had knee surgery. Roger Engle had cancer removed. Sending well wishes their way.

**Show Table:** Brandon filled in for Harry and reviewed the winning orchids from the show table. Congratulations to the winners! If you'd like to enter a plant in the show table, please download the form in advance from the website at Jaxorchidsociety.org.

**Hospitality:** A big thank you to Carol Engle for the chili and scrumptious cake. Yum!

## SECRETARY'S MINUTES CONT.

### Hands on Mounting Activity led by special surprise guest Thanh Nguyen (Springwater Orchids)

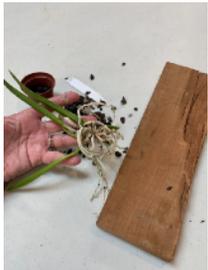

Mounting Brassavola Nodossa plants on cedar planks.

- We mount orchids because that's how they grow in the wild. Some orchids are better in pots and some are better mounted.
- Mounted orchids can be inspected easier.
- When in bloom mounted orchids rarely need staking.
- Mount can be any piece of wood that doesn't rot. Cypress and cedar are good options. ½ width is about right.
- Wire – 16, 17, or 18 is all he uses.
- He makes his own slabs. Be sure and use caution when using power tools.
- Best to have a snug hole for the wire to fit in so it doesn't wiggle. Find a drill bit that fits the wire.
- He drills holes randomly in the cedar plank with a big drill bit (1/4 inch hole). Put two holes at the bottom for the zip tie. Be sure the wood is totally dry (not green) or the holes will split.
- Remove the old media. Flatten out the roots.
- When positioning the orchid, allow room for it to grow. Put any new growth on the inside.
- Once see new root and new growth is best time to repot or mount.
- Need to water mounted plants daily.
- He likes to use coconut fiber on the side.
- Osmunda is the best product to use (but can't really get it anymore).
- Best way to sterilize tools is with fire for two minutes each blade.
- Water just before the plant dries out. General advice for all orchids

Meeting adjourned at 8:45 PM.

Respectfully submitted,

Deborah Courtney  
Secretary

Thanks to Jennie Finn for the photos!

# TREASURER'S REPORT

Jacksonville Orchid Society  
Treasurer's Report  
For the period of June 01 to June 30, 2021

Ending Balance of Checking Account Statement on 05/31/21	<b>\$2,873.52</b>

## JERK MARINADE

### ingredients

- 1 medium onion, coarsely chopped
- 3 medium scallions, chopped
- 2 Scotch bonnet chiles, chopped
- 2 garlic cloves, chopped
- 1 tablespoon five-spice powder
- 1 tablespoon allspice berries, coarsely ground
- 1 tablespoon coarsely ground pepper
- 1 teaspoon dried thyme, crumbled
- 1 teaspoon freshly grated nutmeg
- 1 teaspoon salt
- 1/2 cup soy sauce
- 1 tablespoon vegetable oil
- Two 3 1/2- to 4-pound chickens, quartered

### directions

1. In a food processor, combine the onion, scallions, chiles, garlic, five-spice powder, allspice, pepper, thyme, nutmeg and salt; process to a coarse paste. With the machine on, add the the soy sauce and oil in a steady stream. Pour the marinade into a large, shallow dish, add the chicken and turn to coat. Cover and refrigerate overnight. Bring the chicken to room temperature before proceeding.
2. Light a grill. Grill the chicken over a medium-hot fire, turning occasionally, until well browned and cooked through, 35 to 40 minutes. (Cover the grill for a smokier flavor.) Transfer the chicken to a platter and serve.

NOTE: Be very careful handling peppers--gloves are recommended! Start with the recipe as written, only changing heat (number of peppers) once you've tried it. I use a few tablespoons of marinade for whatever I'm putting it on--chicken, pork, salmon, etc. It keeps forever in the fridge and freezes well! Enjoy!!!

### EDITOR'S NOTE

Ordinarily I wouldn't put something un-orchid related into the newsletter, but several people asked for this recipe at the picnic, and this seemed like the easiest way to get it out!
